## REPUBLICAN ROW. BORTH STATE CONVENTION AND ARTI-CONVENTION FACTIONS.

Passing Compliments-Democratic Congressional Nomination-Swollen Streams-Killed with a Hoo-Fatal Keresene.

[Special telegram to the Dispatch.] RAIRIGH, N. . C., August 12 .-There continues to be much talk of the Republican party's conduct and its intentions to-morrow. An address will be issued to the people calling a massconvention here September the 224. The party is evidently on its last logs, and its own quarrels and fault-findings are aiding in toppling it to its fall. There are only three Republican papers of any influence in the State.
All of these antagonize the action of the committee. Those are the Greensboro' North State, Elizabeth City North Carolinian, and Winston Republican. The former, in its issue received to-day, has a leading editorial evidently written by T. B. Keogh, whe is on the Executive Committee, but is a determined kicker against Dr. Mott and his methods. In this editorial the following plain talk is used : "The only matter that now remains for consideration is what course the Republicans of the State, under the circumstances, ought to take. full well that no considerable number of Republicans in North Carolina will sustain the committee its action in refusing to call convention and to choose a new chairman, which, of course, results virtually in the disruption of the State organization of the party. | Lain. More than this : The Republicans of the State have grown heartily tired of the arbitrary conduct of those who have been entrusted with the management of party details, and there is a restlessness which will most assuredly show itself in open revolt against any effort to exercise unlawful powers." call for a convention was to-day seen by your correspondent. It is a bit ter arraignment of the committee's To-day your correspondent was given an insight into the proceedings of the Republican Executive Committee at its meeting here Tuesday. Chairman Mott said the comttee would hold over. The ques tion was asked by a Republican present why this was done. To this Colonel Humphrey, of the committee

said it was a case of necessity; that

the committee had the same right as an

executive officer to hold over. The

Republican then said that no man or

men have the right to create a necessity

and then take advantage of it. Hum

phrey then took the ground that the

committee were trustees. To this the

Republican replied that the committee

were trustees and were speculating

with the trust-fund. This came near

causing a fight. One of the earnest

workers in the matter of opposing the committee's action is J. C. L. Harris,

who up to two years ago had always

been secretary of the committee. Keogh

is another of the signers to the call for a

mass-convention. Dr. Mott's address is

looked for in a few days.

DEMOCRATIC NOMINATION. The telegraph-wire between Warsaw and Clinton is down, and hence no news was received from the Third District Democratic Congressional Convention at Clinton until to-day. The Convention met at 2 o'clock yesterday afterneon and was in continuous session until 7 o'clock this morning. In that nineteen hours it took 337 ballots and Major Charles W. McClammy, of Pender county, secured the prize of nomination. W. T. Dortch, of Wayne, was withdrawn on the two hundredth ballot, but Wharton J. Green, present embent, held his ground until the three hundred and thirtieth. D. H. McLean and D. B. Nicholson were placed in nomination on the first ballot, but were not prominent. McClammy, the nominee, is an admirable gentleman. He is a farmer and enjoys a popularity which will give him a heavy vote. He is a man of fine mind, and is well informed. Dortch and Green so antagonized each other that it became evident early in the fight that a third man would be the victor. Ore of the most influential men in the State remarked to-day that the struggles for congressional nominations, which are in the South now almost equivalent to elections, will in the foture be severe. Such a plane is worth making every effort to reach. Times were when it was like a forlore hope for a Democrat to go into the fight, and to make or to carry out in the interest of his party Now this is all reversed. only is the nominee sure of a place, but he has a thousand and one men to placate and please by promise of office. He cannot please all, or even one teath. and at the next convention off goes his head. In this State Cox and Green have thus been slaughtered. Some people, Cleveland, claym that Cox's defeat was a direct slap at that gentleman and the President. Of course there are extremists. Some papers in the State are raising a cry of joy at what they term the Democratic attack on Cleveland and his ideas. Stordwick's phrase, "Pubnust be Democrats, not Republicans, is being caught and reschool even by PROBLEMINION.

## MR. OWEN'S RESOLUTIONS the Subject Mutter of the Reformers' Meeting Wednesday.

The following are the resolutions proposed by Mr. Owen night before last and to be considered by the meeting of

the Reformers' Club of Monroe Ward called for Wednesday night next : Whereas we believe the alarming developments and aggressiveness of great capitalists and corporations, unless checked, will inevitably lead to the pauperization and hopeless degradation of the toiling masses; and whereas we believe that the time has come when the preservation of personal liberty and freedom demand that the workingmen of this country should make their weight felt in the halls of Congress by securing the nomination of men in both parties who will pledge their support to labor measures and the repeal of all laws which tend to make the rich richer and

President Diaz, of Mexico, can have no wish for a collision with his powerful neighbor. He must be well aware there are enemies of Mexico on both sides of the frontier who are clamoring for war.
